

COVID-19 CLENT COMMUNITY SUPPORT

Working together to support our community

Hello everyone!

Are you unable to leave your home because of Covid 19/Coronavirus and would appreciate some help?

Would you like to offer mutual support to people in our communities?

We're here for you.

A group of local residents have come together to support each other and the community we live in during this challenging time to ensure that nobody is left isolated or without support.

We don't ask for anything in return, we just believe in helping each other in a time of difficulty.

We are your local neighbours and not a professional body. We can only offer help within reason, and in ways we can also stay safe. If you need medical advice, use the NHS 111 online coronavirus service at **111.nhs.uk/covid-19**, or if you have no internet access, call **NHS 111** from your phone. In a medical emergency, dial 999.

NEED SUPPORT?

If you would like to speak to us, or want to ask for help, please **Phone, Text or WhatsApp Kathryn on 07789 884234** and let's see how we can help.

WANT TO OFFER SUPPORT?

If you would like to support the community and join this group please **Phone, Text or WhatsApp Sue on 07807 836746** and we will be in touch.

You can also join our Facebook community

 **COVID-19 Clent Community Support**

**POSTING
MAIL**

**URGENT
SUPPLIES**

On the back of this leaflet is some advice to help keep you safe

Brought to you by COVID-19 Clent Community Support Group

Led by Kim Topham, Bonnie Harvey and Rosie Padmore

COVID-19 (the new novel coronavirus) is a new illness that can affect your lungs and airways. Let's work to prevent the spread.

STAY AT HOME IF YOU HAVE CORONAVIRUS SYMPTOMS

Stay at home for 7 days if you have:

- A high temperature: You feel hot to touch on your chest or back.
- A new, continuous cough – this means you've started coughing repeatedly.
- If someone in your home has a persistent cough or fever. Everyone living there must stay at home for 14 days.

DO NOT go to a GP surgery, pharmacy or hospital. Read the NHS advice about staying at home: [nhs.uk/conditions/coronavirus-covid-19/self-isolation-advice](https://www.nhs.uk/conditions/coronavirus-covid-19/self-isolation-advice)

HOW TO AVOID CATCHING OR SPREADING CORONAVIRUS

- Stay home where possible. Stop non-essential contact with others and non-essential travel.
- Wash your hands with soap and water often, for at least 20 seconds.
- Avoid touching common public surfaces such as metal or plastic.
- Use 60% alc. hand sanitiser gel if soap and water are unavailable
- Cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze.
- Put used tissues in the bin immediately and wash your hands afterwards.
- Try to avoid close contact with people who are unwell.
- Do not touch your eyes, nose or mouth if your hands are not clean.

USE THE NHS 111 ONLINE CORONAVIRUS SERVICE IF:

- You feel you cannot cope with your symptoms at home.
- Your condition gets worse.
- Your symptoms do not get better after 7 days.
- **Only call 111 if you cannot get help online.**

HOW CORONAVIRUS IS SPREAD?

Because it's a new illness, we do not know exactly how coronavirus spreads from person to person.

Similar viruses are spread in cough droplets.

It's very unlikely it can be spread through things like packages or food.

TREATMENT FOR CORONAVIRUS

There is currently no specific treatment for coronavirus. Treatments are being tested. The earliest a vaccine is likely to be available is 2021.

Use Paracetamol to help with lowering a fever. Avoid anti-inflammatory medication such as ibuprofen, as this may worsen the symptoms.

Antibiotics do not help, as they do not work against viruses.

SHOUT CRISIS TEXT LINE

NOT FOR MEDICAL ADVICE

For anyone struggling with their mental health in isolation or suffering from anxiety or worry. Please text SHOUT to 85258. Shout offer free 24/7 textline support for those feeling in crisis.
