*The Special Education Needs and/or Disabilities (SEND) area inspection by Ofsted and CQC has also recently been published. Although the inspectors recognised recent progress in implementing the 2014 SEND code of practice, they are clear that the local area – which includes the Local Authority, Health Services and Schools – has a lot to do to improve.*

*Partners are now required to produce and submit an action plan to Ofsted.*

### **Health and Wellbeing**

*Worcestershire's businesses and residents are being encouraged to help raise awareness about mental health. There are several ways businesses and residents can do this, one of which is by signing the Time to Change Employer Pledge.*

*Signing the Employer Pledge allows businesses across the country to demonstrate their commitment to change how we think and act about mental health in the workplace.*

*Additionally, Worcestershire has been chosen as one of a handful of areas in England to change how we all think and act about mental health locally by becoming a Time to Change Hub.*

*Time to Change is a national campaign run by charities Mind and Rethink Mental Illness. Time to Change hubs are local partnerships which demonstrate their commitment to:*

- *Putting people with personal experience of mental health problems at the heart of their work.*

- *Embedding anti-stigma and discrimination work locally, whether that be local schools, workplaces or other community settings.*
- *Proactively campaigning to improve people's attitudes and behaviours towards mental health.*

*For more information on getting involved with the Time to Change Pledge please visit: <http://www.time-to-change.org.uk/get-involved/get-your-workplace-involved>*

### **The Environment**

*Work has started to ease congestion at Worcestershire's worst traffic hotspots.*

*Worcestershire County Council has pledged £5m over the next 2 years to identify, investigate and deliver solutions to tackle congestion sites across the county.*

*Work has now been completed on the A442 Worcester Road just outside Kidderminster where there can be long tailbacks at peak times. An additional lane off the Hoobrook roundabout has improved traffic flows considerably.*

*The council's list of hotspots to improve includes the A44 through Worcester where junctions will be upgraded as well as a complete redesign of the major City Walls Road/Sidbury/Commandery Road interchange, including new pedestrian crossings. The Croft Road zebra crossing is also on the list to improve.*

*In Redditch, improvements will be made to the junction of Icknield Street Drive and Warwick Highway where a section of the carriageway will be widened this summer.*

*In Bromsgrove, work to improve the free flow of traffic along a section of Worcester Road where parked cars currently cause pinch point congestion, which has resulted in an air quality issue for residents. The council is also working with Wychavon District Council to develop an Evesham Transport Strategy, to explore and pursue options to alleviate congestion in the town.*
